fragrance does not mean that it works well with your body. We have unique responses to scents, and sometimes, what smells good in other people does not work with us, and what smells good in us may not pleasant when worn by other people. In your visit to the perfume shop, check the product, check whether the scent stays the same after half an hour or so, and decide whether you still like the way it smells by then.

Women Pheromones Applying a pheromone-inducing scent is one of the solutions for ladies to draw men. Women pheromones, chemicals that the female body naturally releases, tend to be a kind of scent that men are anatomically sensitive to and positively responsive of...

When you already have your chosen pheromone scent, make it a point to apply or spray it only in the crucial heart points, which are the wrists, neck, back of the head, and the knee line. Do not wear the scent abundantly that you're like a walking perfume bottle. Like clothes, be modest in wearing the actual scent. This particular make the opposite sex see an image of sophistication in you, captivating them lightly and slowly without having to be obvious.
